McDonald Group Institute for Dealer Development founder and author Walter McDonald has based this text on 40 years' experience in dealer management consulting and over 2,650 dealer management workshops. In many ways, this book is a written reflection of Walt's live dealer management seminars. If you are familiar with his work, you know that he focuses on the real value generating activities of the business. He is in the trenches with the dealer managers and field sales and aftermarket reps who create real value and make it happen every hour of every day in the dealership. McDonald's dealer management guide is an absorbing refresher for informed senior executives and a highly useful handbook for those future dealer leaders and related OEM managers on the way up. This dealer guide actually contains two books, one book with benchmarks and advice on what the numbers mean and the second book on how to improve the numbers. This manuscript could have been subtitled: 'real metrics, real solutions.' The dealer/distributor can analyze its business operations through the

performance yardsticks presented in this timely publication. By Nick W. McGaughey, CPA, \"This dealer text is very well thought out, well written, easy to read and follow.
