The Renegades of Pern is a science fiction novel by the American-Irish author Anne McCaffrey. It is the tenth book in the Dragonriders of Pern series. It was first published in 1989.

Like Nerilka's Story, The Renegades of Pern is a departure from the normal perspective for the Dragonrider books, presenting a parallel viewpoint, this time running concurrent with the original trilogy; the book begins at the time of Dragonflight and ends a little after the ending of The White Dragon. It tells several stories, tied together by the figure of Thella, renegade sister of Larad (Lord Holder of Telgar Hold). The exploration of the Southern Continent and discovery of ancient human relics there (including the activities of Piemur and Menolly from the Harper Hall trilogy) also figure in the novel, which...

The Dragons of Pern are a fictional race created by Anne McCaffrey as an integral part of the science fiction world depicted in her Dragonriders of Pern novels.

In creating the Pern setting, McCaffrey set out to subvert the clichés associated with dragons in European folklore and in modern fantasy fiction. Pernese dragons are similar to traditional European dragons in the fact that they can breathe fire and resemble great lizards or dinosaurs with wings, but the resemblance ends there. Unlike most dragons in previous Western literature, Pernese dragons are entirely friendly to humanity. Furthermore, they are not magical at all. Instead, they are a heavily genetically modified species based on one of Pern's native life-forms, the fire-lizard.
